## "Let's Go Motorwheeling"

"Motorwheeling" means slipping along on a bicycle with the Smith Motor Wheel attached. You will not need to pedal--the Smith Motor Wheel will do all the work.

The Smith Motor Wheel is a complete power plant in itself. It can be attached to any bicycle in five minutes. It operates and runs on its own tire, independent of the bicycle, and does not load or strain the bicycle in any way. The motor is simple and compact, perfectly clean and free of vibration, and is operated and controlled by a little lever attached to the handle-bar, the control being, literally, "right under your thumb."

For 30 days---as an introduction---we will sell the "Ford Special" and "Monarch" Spark Plug for 40c each.
